REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art, Kudo et al (JP 57-210941), expressly teaches away from the formation of carbides/nitrides (see 1st paragraph on page 9 of translation and paragraph spanning pages 10 and 11 of translation). Therefore, the present claims are allowable over the prior art of record because the prior art directly teaches away from the new claim limitations of "nitrides or carbides in intercrystalline regions".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
